

TWISTED SUBDERMAL NEEDLE ELECTRODE

Description

Disposable twisted monopolar subdermal needles.
Available in set of 2, 3, 5 and 10 twisted needles.
The twisted needle electrodes are easy to recognize thanks to the color coding of the lead wire.

- Special sharpening for a painless and atraumatic needle insertion;
- 100% quality control of the product;
- Very thin shrinking tube as alternative to the needles with moulded hub;
- Pair of two needles twisted with cables and different combinations of colors.

UMDNS 11441

Materials

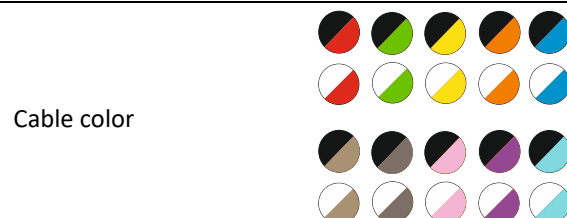

Needle	Stainless Steel
Needle handgrip	PVDF
Lead wire	Cu/Sn with PVC jacket
Connector	CuZn with PVC jacket
Packaging	Medical paper/PET-PE

Safety

Biocompatibility (UNI EN ISO 10993)	Yes
Sterilization method	Ethylene oxide (EtO)
Latex	No
Phthalates	No

Specifications

Generic codes	MNXXXXXXXXXX TTXXMNXXXD
Needle diameter	0,20 - 0,40 mm
Needle length	From 8 to 22 mm
Cable length	From 100 to 250 cm

Connector	Touch Proof 1,5 mm DIN 42802
