Disposable Urethral Catheter Electrode

This Electrode Works!

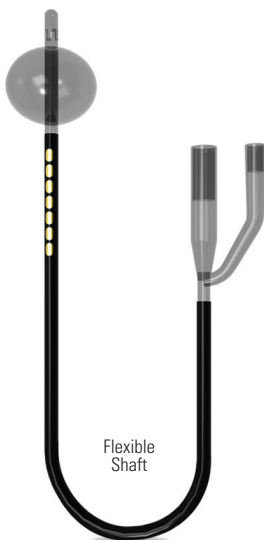

- Consistently low, balanced impedances
- Clinically strong TcMEP
- Sensitive Triggered EMG
- Sensitive Spontaneous EMG

We Listened to You:

- You needed a way to monitor the External Urinary Sphincter
- You needed an extremely gentle, safe electrode
- You needed a product to fit current practice

We Created a Solution:

We combined over 100 years of engineering and medical/surgical experience to bring to life an electrode to stimulate or record from

Flexible
Shaft

the tenuous set of nerves innervating the External Urinary Sphincter. Our electrode meets your needs!

- No electrode application necessary
- Pre-wired 2 meter twisted pair lead wires
- Secure and flexible low profile gold contacts
- No needles!
- Unisex

Wide Range of Applications:

- Urology Surgery
- Spine & Neuro Surgery
- Trauma Surgery
- Rehab Medicine
- Diagnostic Urology
- Many Others

Fits Current Practice:

Works just like a standard Foley

- Same Foley Sizes
- Same Foley Placement
- 100% Silicone Catheter
- 5 Year Shelf Life
- Fits Standard Urimeter Bags
- Fits Standard Neurodiagnostic Machines

Available in Several Sizes:

- 12Fr, 14Fr, 16Fr, and 18Fr Sizes
- Custom sizes available upon request
