

Handheld device for EMG/STIM-guided injections

Simple sophistication

Clavis is designed to be simple and intuitive to provide accurate guidance in minimal time

A fast & easy pathway to injection of medicinal products

Clavis is designed to provide the functionality of EMG recording and stimulation with mobility and simplicity. Clavis combines the quality of larger systems with the ease and flexibility of a handheld device.

- EMG and STIM functions in one compact device
- Easy to use and operate
- Battery powered
- Perfect match with Bo-ject DHN needle electrodes

Benefits of a large system in a handheld device

Clavis provides muscle and nerve localization wherever needed to accurately guide and monitor injection of medicinal products. It provides EMG recording with audio and stimulation ranging from 0-15mA with speed and reliability while efficiently operating on battery power.

Guidance for injection of medicinal products where & when you need it

Clavis is quick and easy to operate. Provides guidance for accurate injection of medicinal products at the exact point of treatment.

Clavis is small and lightweight for easy, portable use in any location.

Instantly switch between stimulation & recording

Switch quickly and easily between stimulation and recording functions. When seconds really count, Clavis' fast and simple operation saves time.

Clavis & Bo-ject needles – made for each other

Bo-ject needle electrodes are:

- Consistently sharp, stainless steel needle with a low-friction coating for patient comfort
- Compatible with a wide range of reference electrodes and syringes with Luer Lock or slip tip connectors
- Easy to attach to Clavis and ready to use quickly
- Ergonomically designed and lightweight for greater control

To ensure consistently reliable results, Clavis is designed to work with Bo-ject disposable hypodermic needle electrodes. These needle electrodes have been specifically developed for injection of medicinal products such as botulinum toxin.

Ordering Information

Disposable Bo-ject® DHN disposable hypodermic needle electrodes				
Part Number	Needle Length	Needle Diameter	Lead Color	Quantity
9013S0422	1" (25mm)	0.30mm (30G)	Tan	1/pouch - 10/box
9013S0432	1" (25mm)	0.41mm (27G)	Pink	1/pouch - 10/box
9013S0442	1.5" (37mm)	0.41mm (27G)	Light Blue	1/pouch - 10/box
9013S0472	1.5" (37mm)	0.46mm (26G)	Brown	1/pouch - 10/box
9013S0452	2" (50mm)	0.51mm (25G)	Grey	1/pouch - 10/box
9013S0462	3" (75mm)	0.71mm (22G)	Light Green	1/pouch - 10/box

Disposable pre-gelled surface electrodes				
Part Number	Recording Area	Lead Length	Lead Connector	Quantity
443010	15mm x 20mm	6.5" (16.5cm)	0.7mm male touchproof	12/pkg
454010	20mm x 25mm	6.5" (16.5cm)	0.7mm male touchproof	12/pkg
443020	15mm x 20mm	47.2" (1.2m)	1.5mm female touchproof	12/pkg
454030	20mm x 25mm	47.2" (1.2m)	1.5mm female touchproof	12/pkg
454040	20mm x 25mm	79" (2.0m)	1.5mm female touchproof	12/pkg

Disposable ground/tab electrode		
Part Number	Type	Quantity
019-435300	Ground	10 pouches/box

Alligator clip cable for tab electrode					
Part Number	Type	Length	Electrode End	Instrument End	Quantity
9013P0602	Unshielded	31" (80cm)	Clip Connector – Green	1.5mm touchproof connector	1/pkg
9013P0642	Unshielded	31" (80cm)	Clip Connector – Red	1.5mm touchproof connector	1/pkg

Service

At Natus, we strive for excellence in customer and technical service.

Here's how we can help:

- Accessible and effective Technical Support
- Definitive technical documentation and knowledgeable installation teams
- Replacement unit and spare part availability
- Extended warranty and service coverage programs
- Comprehensive, flexible customer training courses

Supplies

Convenient, complete, trusted

Natus supports the full spectrum of neurodiagnostic care, providing a complete portfolio of EMG supplies for a seamless solution.

We also offer:

- Dedicated and knowledgeable customer service
 - Streamlined order processing
 - Convenient online ordering (US Customers only)
- Natus Medical Store – www.natusmedicalstore.com

Healthcare solutions with one thing in mind. You.
